

## ***Neural Networks Policy Regarding Editor Submissions***

- A manuscript authored or co-authored by an action editor (AE) will be handled in the same way as any other manuscript with the exception that the handling AE's recommendation is final (i.e. his/her recommendation cannot be overridden by the handling Co-Editor-in-Chief).
- A manuscript authored or co-authored by a Co-Editor-in-Chief (Co-EIC) must be submitted to a different Co-EIC, who then assigns to an AE, and the AE's recommendation is final.
